Be patient. In the name of Allah, the most gracious, the most merciful: „O you who believe, be patient and persevere and fear Allah you may be successful.“

Allāh Almighty says: Be patient and be with the patient.

Patience is necessary on the way to Allah. Persistence is also necessary on the way to Allāh.

And do good — if you do good you will win in the end.

This is a promise from Allah.

There are all kinds of adversity in this world And problems and turmoil among humans

Some people control the property of others and everything.

Therefore, we must be patient and steadfast against these and ḡht them He who thinks he wins by deceiving others is deceiving himself

It won‘t help them, and it won‘t bless them

Often people come and say: This deceived me and took my money. And he doesn‘t want to take it back, please pray for me to take it back.

Mawlana Sheikh Nazim used to say:

„Drink a glass of water on it!“

This might sound like a joke, but whoever earns money from forbidden by deception will not remain in his hand.

It won‘t work and it will disappear.

O Allah, do not make any of us in distress And from God success.. Al-Fatiha
