For a while, I've been asking myself  
Why religious associations and their representatives  
they cannot explain the background of state terro-  
rism related to corona and spread in the world and to  
mention the evil that lies in it.

There are brave Christians who have known the  
devil behind the word "Corona", but they are few.  
And there are Jewish rabbis who declared that this  
gene therapy called vaccination. It is not compatible  
with the Jewish religion. And they expect that an evil  
global government is trying to impose a new world  
order. He imposes himself the following question:  
Where are the Muslims?

Where are the heads of associations and mosques  
who are carrying out the liberation movement?  
It seems that they (apart from some wise Spiritual  
Path Elders) do not exist. Why do officials do the op-  
posite and impose on believers? Wearing a mask that  
does not protect but gets sick? And through which  
Satan brings them down every Friday to the status of  
a robot?

How do mosques turn into places that offer injections  
of poison called vaccination? Which shows its danger  
and lack of effectiveness against the virus over time?

What could be the reason for this shameful hypocri-  
sy of the sultan of the state other than cowardice in  
front of the enemy!  
Or are they so stupid as to see the enemy as a friend?

„And do not follow in the footsteps of Satan, for he is  
to you a clear enemy.“

O Muslims, gather your minds and strength, and say  
a clear "No" to the whole world  
And do not think that without fighting Satan, you  
can die in peace
