Whoever is on the Right Path will find Me

MAULĀNĀ SHEIKH NĀZIM AL-ḤAQQĀNĪ, Lefke, Cyprus

Speech on the occasion of ‘Īdu l-aḏḥā, 11th Dbu l-Ḥijja 1427, 31st December 2006

*A‘ūdhu bi-llābi mina sh-shaiṭāni r-rajīm, bis-
millābi r-rabmani r-raḥīm,*

*lā ḥawla wa lā quwwata illā bi-llābi l-‘aliyyi
l-‘azīm.*

O people, we are coming to the ‘Īd prayer, ‘Īdu l-aḏḥā, Kurban Bayram. Allah has gathered us for this. We hope that next year the flag of Islam will be raised in the east

and the west and that Dunyā will be in peace. Shayṭān’s Sultanate is disturbing the peace.

We are waiting for the Sultan! We are looking for a Sultan that our most praised Prophet Sayyidinā Muḥammad ﷺ promised will come when the Last Days approach and Islam will be in name only and Muslims will take no care about Islam and will not practice or obey. That day should come that Shayṭān will establish

Kirghiz yurts near Taschkent. Dr. Walter Ph. Schulz, *Welt des Islam* I., Munich 1917, p. 89.

his sultanate on earth and from the east to the west all nations will follow him. People will be Muslims by name only but they will not practice Islam or the Holy Rules sent by Allah Almighty.

We are in those days now and I am not happy! And I don't think any Muslim can be happy with the sultanate of Shayṭān. Shayṭān has divided Muslims into forty, forty-five, fifty states and everyone is against each other, but Allah Almighty says: "... *wa a'taṣimū bi ḥabli-llābi jami'an wa lā tafarraquū* [3:103] – O believers! You must be all together, like one hand! Don't be separated!"

The first people to misunderstand what Allah Almighty says are the Arabs. They are separated. Turks, Pakistanis, Berberians, Malaysians, everywhere Muslims are separated. Why don't they listen to what Allah Almighty said? But Allah Almighty is preparing something to bring them to the right path! One slap is coming on them!

The days of tyrants are coming to an end. One by one they will be taken away, therefore I am asking Allah Almighty to make Islam reach with full power to the coming year all over the world. All wrong ways should be destroyed, and only one way, *s-sirata l-mustaqīm*, should survive about which Allah Almighty said: "This is My Way, this is the true way, the right path, because who comes to that way, finds Me and will be with Me and I will reward them with eternal life, for eternity!"

O people, ask for eternity, ask to reach eternity! We are not going to live forever on earth, no, everyone who is born must die. But this is the perfect chance for a person to be taken from this life to the other life while he is on the path of Allah Almighty.

Try to be on the right path, o people, and leave wrong ways, they are all shayṭānic! If you want to have a good life, perfect, peaceful life here, listen and obey Allah Almighty's orders! If not no one can have a peaceful life on this planet, and when they die they will go to Hell. There is no peace for them here or hereafter.

O people! Therefore you must ask Allah Almighty: "*Yā rabbī*, let us have good shepherds, o our Lord, to make our ways good ways and let us follow Your good shepherds to reach Your pleasure!"

O people, ask Allah Almighty: "*Yā rabbī*, o our Lord, give us a chance to make You pleased with us!" You must ask about everything you do: "If I do this, will my Lord be pleased with me or not?" This is the balance in all holy books, Old Testament, New Testament, Psalms, Holy Qur'an. And all Messengers from Sayyidinā Ādam عليه السلام until the last, ending with Sayyidinā Muḥammad صلى الله عليه وآله, all of them were trying to teach people that they should do their best to make their Lord pleased with them!

Lā ilāha illā llāh, lā ilāha illā llāh, lā ilāha illā llāh, Muḥammadun Rasūlullāh!

Subḥān Allāh, Sulṭān Allāh! Subḥān Allāh, Sulṭān Allāh! Subḥān Sensin, Sulṭān Sensin! Subḥān Sensin, Sulṭān Sensin! Yā Allāh!

There is no Khaṭīb who can speak what we speak! This is only one place here but our message has reached east and west!

May Allah forgive me and you and bless you, His *mu'min* servants!

May Allah from His endless Mercy Oceans make us strong believers and full with love of Allah and His most beloved, most praised servant, Rasūlullāh, and His Awliyā' and Mu'mins! ♦

Shayṭān's Big Bang Theory

Sabbet after Zubr, 'Īdu l-aḏḩā, 11th Dbu l-Ḩijja 1427, 31st December 2006

As-salāmu 'alaikum wa raḩmatullāb wa ba-rakātub! Welcome to you!

Allah Almighty has granted us His Blessings today and we are asking for those blessings to continue on Ummati Muḩammad, the Nation of Sayyidinā Muḩammad.

Madad, yā sultānu l-awliyā', madad, yā rijālallāb! O people! We are weak created servants, very frail. Even a small virus may kill a person! A virus is smaller than bacteria ...

A'ūdhu bi-llābi mina sh-shaiṭāni r-raġīm, bismillābi r-rabmani r-raḩīm.

By the Name of Allah Almighty, All-Merciful, Most Beneficent and Most Magnificent: Allah Almighty has endless oceans, from pre-eternal until eternal, and no one knows His Kingdom except Him, and His Dominions are endless, endless! We are living in an endless ocean, our life on this planet only amounts to the water that will remain on a needle when it is dipped in an ocean. But Allah Almighty has put mankind in a situation that He has created them to be His Caliphs in this world. And this world is so small; even with a solar system or with billions of galaxies, they are swimming in endless space, endless!

Sometimes I ask scientists or professors or those who claim to be scholars: "O that one, what do you think about space? What is your opinion about space? You say that you know everything but you are trying to cheat people, to make them not to ask deep questions about this creation and you are bringing some nonsense theories about the beginning of this universe. You say that in the beginning there was one atom. Yes? One atom. I am asking: Where was is?"

They give no answer. Then you say that that one atom was in existence, and then one day it exploded. An explosion just happened and in that explosion such a huge energy came and spread everywhere. I am saying: "What is everywhere? What do you mean everywhere? That 'Big Bang', where was it put? Was it a free being in existence or was it related just around itself?" They give no answer.

I am asking: "The Big Bang, I know, as you are saying, is a theory, but where was it? Another question: Who was putting that one atom there?" Again no answer!

And I am asking: "What do you think? When it exploded, do you think that it was by remote control? Was it under a power like remote control and the time came and it exploded?" No answer.

They give no answers, but they are such foolish people, they are insisting. So many foolish governments also insisting to teach people this about the beginning of creation, but no one can answer what I am asking them.

By itself it can't be! Was it related to time? Time we can only know on earth by the sun's movement and also the planets around it; but at that time, do you think that there was time? They give no answer, but they are insisting!

They are shayṭānic people, not to say that Allah created this! And their theories are nonsense! There cannot be a Big Bang! This is a new fashion which Shayṭān is teaching them: "You must, if anyone asks you how this creation came into existence, say this: 'It was one atom, big atom, but we don't know its size. We don't know, only our teacher is teaching us.'" Who is that one teaching them? Shayṭān. But they don't say! Shayṭān says that:

“The beginning of this creation was from one big atom which exploded spreading so many things that were in it, and then they were beginning to turn around themselves and suns, solar systems, and galaxies came into existence ...”

This is Bâtil, nonsense! But every government in their educational system are teaching this, not to say Allah created!

And we are on this planet. Who landed us on this planet? Another question – no answer ...

I am asking: “Who first planted pine trees on the Alps? Do you know, Italian people, German people, English people? Who first planted pine trees on those mountains?”

And they say: “We don’t know.”

But someone planted them on that high rock – who is going and planting it? The rocks and mountains are full of trees! And if you look in a forest in some places there are only pine trees; but if you look a little bit further you can find another kind of plant, another kind of tree growing – why do the pine trees not continue? Who makes these different plants to be on the mountains? Who is that one? Why do you tell lies? Why are you trying to cheat people? Why you are following Shaytân’s way? Why do you not believe in Holy Books? Why do you not believe in holy Prophets? Why do you not believe in the Seal of Prophets Sayyidinâ Muḥammad ﷺ?

But they have graduated from the University of Shaytân! Everyone has a degree on a piece of paper and puts on his head a shayṭânic cap. They say: “Graduated students from this year at Lefke University.” Or: “This is a photograph of Oxford University students who graduated this year.”

What do they know? Nothing! We must try to think! We must try to understand! We must try to believe! We must try to follow the truth! We must try to follow true ones, to be with true ones!

If not, this world will be like the surface of the moon! There is nothing on the surface of the moon, no plants, no water, no animals, no amoebas, no

man, no animals! Our planet will also be like that, if people do not come and say: “O our Lord, You are the Creator and we are Your creation; we are one kind of creation and You granted us to know, to think, to learn and to follow and to reach You!” If not, the surface of this planet will soon look like the surface of the moon and life will finish.

May Allah forgive us! O people, think and accept the truth and follow true ones, if you want to reach the creator’s pleasure! If not, a bad end is waiting for those who they deny everything coming from Heaven, refusing to accept holy books and holy messengers and their holy messages!

May Allah forgive us in this holy month, holy day. And we have been honoured to be Muslims! Our aim is only to be a good servant to our Lord, nothing else! Today we are in existence, tomorrow Allah knows, if we are on this planet or under it.

Subḥān Allāh, Sulṭān Allāh! Subḥān Allāh, Sulṭān Allāh! Subḥān Sensin, Sulṭān Sensin! Subḥān Sensin, Sulṭān Sensin! Subḥān Sensin, Sulṭān Sensin, yâ Allāh!

Send us the Sulṭân! Shaytân’s head will be broken! The flag of Islam will be raised! Send us the Şâhib, yâ Allāh! For the sake of Your Ḥabîb, *Fâtîḩa!*

... I have to speak in English, because these people are coming from far away and they don’t know Turkish. They come maybe once a year or less, once in their life, to listen to these words. They bring these words to their countries where they don’t say ‘Allah’ and these words are to correct their wrong beliefs and this advice is to stop the Bâtil there!

May Allah wake up our people also to come to the Way of Truth, not to run after Europeans. If they run after Europeans, they will fall with them! May Allah protect us.

Keep the way of the Prophet, who is His beloved! Who follows and loves him and keeps his way, is accepted in Allah’s Presence and finds eternal happiness! If not ... *Fâtîḩab.* ♦
