## The Teachings of Shaytan

MAULĀNĀ SHEIKH NĀZIM AL-ḤAQQĀNĪ, Lefke, Cyprus  
*Sabbet from Yaum al-aḥad*, ~ 24th *Shawwāl* 1428 / 4th November 2007

*As-salāmu 'alaikum! Al-ḥamdulillāh wa s-ṣalāt  
wa s-salāmu 'alā Sayyidinā Muḥammadan, zid  
ḥabībika 'izzan wa sharaḥa wa nūran wa surūra  
wa riḍwānan wa sulṭāna, Allāhumma rushdanā  
wa aisinā min sharri anfusinā!\**

Half asleep, half awake.

*A'ūdhu bi-llābi mina sb-shaiṭāni r-rajīm, bismi  
llābi r-raḥmāni r-raḥīm.*

\* O Allāh, guide us and grant us refuge from the evil of  
our nafs!

Yā Rabb! People are coming from far away, from the East and West, from the North and South of this world and they want to learn something, because Cyprus which is a very small land is an unknown place here on this world.

And we are saying: *A‘ūdhu bi-llāhi mina sh-shaiṭāni r-raġīm, bismi llābi r-raḥmāni r-raḥīm.*

**W**e are running away from Shayṭān and asking to run to Allah. That is a good rule that everyone may learn and anyone who remembers it may receive some benefit. What is that rule? Run away from your enemy and run to that One who can protect you! Don't run after your enemy! Your enemy can have hundreds of traps and he is using countless tricks against mankind. He is presenting himself, not so much presenting as introducing himself, saying: "O people, I am a very famous friend of yours and I was always running after you to teach you something that should make you happy and able to save yourself."

Shayṭān says to people, "First of all you must take away from your mind that you are dying and then returning to life. That is something that our mentality can never accept! When one of you dies and they put you in the graveyard then in that grave your body changes. There won't be any soft areas left on you, there won't be any flesh from your physical being left on your skeleton. That soft physical thing that was dressed on your skeleton after a short or a longer time will pass away and be finished and become dust. And when you look you will only see a skeleton. What do you think about that?"

You won't be able to tell the difference between any skeletons. If they put in front of you ten skeletons, you won't be able to say,

this is Greensheikh, you can't say that this is the skeleton that belongs to Greensheikh or that is the skeleton of 'Abdul 'Aziz bin Baz or this is a servant from Yemen or this is an Asian, Abū Zaid Ihwān, or that is a King's skeleton. No!

If you can't tell the difference between skeletons, and what can you say after the skeleton has become dust, when nothing remains and everything from a person's body has disintegrated into dust, how will you be able to say, my friend, that this skeleton will come back to life again? First of all, if you like to follow my guidance, leading you to pleasure and a peaceful, happy life, you must take this away from your dictionary. There is nothing after death! Death is the last point of a living person, and beyond that it is finished. Therefore, I am happy and honoured to try to make people use their mentality and to try and have much more pleasure in this life. Yes, that is the first lesson that I am going to teach you for a joyful life. If you can accept my advice you should be happy. Therefore, take away from your dictionary belief or disbelief—you must be a realist! And I am the number one realist." Shayṭān says to people, "Number one" and "Follow me!"

Therefore Allah Almighty declares: "O people, these are such foolish ideas! Your most terrible enemy is trying to teach you, but he is not teaching you, only cheating you!"

Once in a country some no mind agents of Shayṭān built a big hotel. Then, when it was built, they said: "Yes, it is finished now but how are we going to operate this place? How can we use this place and get the best return on our investment?"

They were told: "For every subject you must ask an expert." They said: "How can we find such a person?" And so many people told them: "For employment and investment

and for this huge building the most important people when their minds are on the subject are the Children of Israel.” “Ha?”

“You must go and learn from them! They may show you a way to use it. But you must be very careful! Sometimes they are telling the truth, sometimes they are saying wrong and you can’t trust them!”

And then, to shorten our story here: they asked and they were told, “Go to Tel Aviv.” A group of people went there having prepared themselves in order to ask how they were going to make it work and how to invest the money from that. Because in our days people worship money, run after money, money, money!

And they went there and found the consultant who was going to tell them about their work. They came and knocked at the door and the clerk opened it saying: “O welcome! Oh, you are very welcome! I can see that you are not from this country, you look like foreigners.” “Yes Sir,” because if they were from their own country, they would say something else. “Now it is okay, welcome. Are you coming for a consultation?” They said: “We are a group of people from a famous island in the Mediterranean and we have just built a beautiful building and we are asking how we are manage it. That is our question.”

“One moment.” The clerk disappeared inside and was told: “First before they come in take what they should pay before the consultation, then let them in, because we may give them the consultation and then they don’t pay anything, they may escape and we can’t get the money. Therefore first of all they should give a fee for the consultation.” “Yes, Sir!”

“Eh, our solicitor is asking first of all that you should pay a thousand Pounds before the consultation.”

“What do you think, do we have such an amount? We never thought that we would fall into such a trap!” “This is not a trap! This is a fee! You must pay because there is no time for our solicitor to wait here, the taximeter is always running: tick tick tick. The longer the meter is running the more you should pay. Quickly!” They paid the thousand.

“Where do you come from? In that country so many people are printing counterfeit money.” “Yes, Sir, this is original money, not imitation or photocopy.” “Not photocopy?” “No, Sir, I am not such a person that doesn’t know!” And they went in and the solicitor said: “Welcome, our precious clients, welcome to you! Would you like to drink water or would you like to drink tea?” “No, Sir.” “But after paying this you must drink! For thousand you must drink something to digest the payment. What are you asking?”

„Yes, Sir, we are coming from that island where there are so many trouble makers. Sometimes people are coming from one side of the island to the other and they are asking for a modern hotel. So we built a good hotel but then we felt into disagreement among ourselves. Some of us said, we may use it in this way, others said, no, we may use it in another way. And so we quarreled and therefore we have come to you to hear your advice.”

“Give me the hotel’s details.” And he looked to the pictures and asked: “Is this the building?” “Yes, Sir.” “This is a good building. But what is behind it? I can see something that looks like a minaret. I don’t know if I am right or wrong, have a look!” They said: “Yes, Sir, right next to the wall there is a mosque there.”

“Oh my no mind clients! You are really no mind people! That is a mosque, where they

are calling the *adbān* for the people of Allah to pray and you are building here a big hotel for Shayṭān and shayṭānic works! How can people who are riding on each other, drinking and doing everything that they want, hear five times from that minaret *Allabu akbar*, *Allabu akbar!* They will think, ‘What is that? and escape so that they don’t have to listen to it. And then they may ask you: ‘How is this a modern hotel?’ Therefore my advice to you is: Either you take this hotel from here to another place or you must take the mosque from there to another place or it will never work.”

Why am I saying this to you, oh people? Because Shayṭān says: “Don’t obey! Take away the belief in the Creator, in the Day of Resurrection, in the Day of Judgment! These things you must take away from your dictionary, then you can be free to do everything as you like. If not, then you can’t live. And I am your best friend, that is my advice to you, oh my friends: Don’t believe and you should be happy!” And Shayṭān says: “You can’t be happy in holy places, you must stop believing in anything that leads to a future life, that there is another life after this life. These are the main points of the shayṭānic lifestyle of the 21st century and of 21st century people. All of them say: “There is no God – hashā –, no life after death, no Resurrection, no Judgment Day, no Hell, no Paradise, only here!” That is the mentality of the whole world now.

Therefore the Lord of Heaven is going to take them away! But He promised the Seal of Prophets: “O My most beloved, most praised servant, oh Muḥammad – peace be upon him! –, I am not sending their punishment from Heaven or from under their feet, but I am making them to be democrats, anti-democrats

haha, parties, parties to eat each other. They should destroy each other!”

You can think about what Pakistani people are saying: “We are first class Muslims,” but these first class Muslims are fighting each other now. What are they fighting for? For Allah? No, for Shayṭān! And in all other countries there is fighting: in Turkey there is fighting, in Iraq there is fighting, in Syria fighting, in Lebanon fighting, in Iran fighting, in the East and West, everywhere there is fighting! For what? For Shayṭān! He is causing them to fall into the fire here and into Hell there after this.

O people, don’t be cheated! Shayṭān is coming and saying: “I am teaching you!” No! Say: “You are cheating us!” You may look and see this everywhere!

O people, leave Shayṭān and follow Allah Almighty’s Way, you should be happy here and hereafter. May Allah forgive us! For the honour of the most honoured one in His Divine Presence Sayyidīnā Muḥammad ﷺ, Fātiḥah.
