## Shayṭān has sent his spies

MAULĀNĀ SHEIKH NĀZIM AL-ḤAQQĀNĪ, Lefke, Cyprus  
*Sabbet from Yaum al-aḥad*, 3rd of *Ṣafr* 1429 / 10th of February 2008

*Bismi llābi r-raḥmāni r-raḥīm!*

**M**ay Allah take away Shayṭān from our meeting! Shayṭān is going everywhere and spying, spying ... “What are they doing?” He is sending some of his agents here: “Go and look, what are people doing with that Sheikh?”

Spying! Whoever is spying, is Shayṭān! And Shayṭān is cursed, cursed! Shayṭān is sending his servants – not servants, his slaves: “Go and look, what they are doing there”, and those people are coming to look.

“What is the Sheikh saying? How is the Sheikh gathering those people there? Perhaps the Sheikh wants to change not just Cyprus, not just Turkey, not just the Middle East,

but all the territory over which I have an empire,” Shayṭān is saying.

His empire stretches from East to West, from North to South but he is very anxious, saying: “The Sheikh, even though he is alone, you can see he has a very big intention! He intends to destroy our empire, that is spread from East to West, from North to South. Even though I have so much power on earth, and I can see that everyone follows my orders and are keeping my rules, running after me, but the Sheikh, even though no one is following him, I am afraid that he may destroy my empire!”

And I am saying: “I am nothing but you are claiming that you are something, there-

fore I am going to destroy your empire, imperial shayṭānic empire which stretches from East to West and North to South!”

Shayṭān sends his people! They are coming and they are Shayṭān’s slaves! They are checking out what the Sheikh is saying. Tell them: “The Sheikh will make Du‘ā’ against you!”

“Has the Sheikh really so much power?”

“No! But Allah also sent His weakest soldier to Nimrod, a mosquito, to destroy Nimrod.”

Therefore they are afraid now. We will destroy them! They have fear in their heart and they will be destroyed! How can Islam be destroyed! Who is the owner of Islam! Allah!

Allah, He is the Sultan, the King of Kings, and He is doing everything as He likes! He used mosquitos at the time of Nimrod, now He is using the bird-flu ... Ohhh! He may destroy the whole world with it ...

“Where is it? Inside or outside?” they are asking. “We can’t see it ...” and they think that, if they can catch that virus, they can kill it.

In the Caucasian mountains in Daghestan live so many kinds of people. And once upon a time in one of those countries, there lived a tribe, whose name was *deli kartal*, which means “crazy eagles”. They were famous for being such idiotic people, but their hearts were soft, and they had such calm and satisfaction in their hearts.

Once they intended to build a mosque. There were some people all of them on the same level and they didn’t have such a person as Tahsin Baba who is able to organize such a thing. They wanted to build a mosque and so they built it ... [Some people get up to leave. Sheikh says in Turkish to them that it is very bad manners, *adabsiz*, to leave the gathering after it started. People should go before or stay. He is saying they are from Shayṭān’s group ...]

They were building the mosque according to their knowledge. They built the four walls and then they wanted to get a big beam for the roof on top of which they could put the other timbers to make the roof. In order to make the roof beam they brought a big tree and prepared it. But when they put it up on the walls, they found that it was not long enough. From here up to there it was one yard short. They said: “It is not reaching from here to there, what shall we do?”

The chief architect said: “Oh our brothers, we must take it from both sides, make like this and make like that, spreading, and putting, and it will be okay! How can we do that? Now you must put this tree in water for 40 days. After that it will be soft and we can stretch it – half the people standing this side, half the people the other side, and it will be okay!”

They put the beam in water for 40 days. And after 40 days they called the people: “Oh people, come, and we will stretch it from both sides! Half the people from here, half the people from there!” They were using ropes, and: “... Yes, yes! A little bit more! This is coming like this ...” When it was coming like that, they were saying: “Ohhh! It’s getting longer!”, and the architect said: “It is okay now, let’s try!”

Yes. But they had forgotten which wall they had put it on and they put it from a different wall to another wall. And when they put it up they said: “Ohhh! We stretched it too much! Look! What shall we do? Doesn’t matter ...!” Such people!

One person from another tribe was bringing some pots made from clay to them. On his way his mule was afraid of something, jumped up, and all the jugs and pots were broken. Then that person thought: “Oh! All my capital is finished! I was thinking that I could sell it to those people and make much money, but now I am finished!”

But Shayṭān came to his mind and said: “Don’t worry! Sit down and make it powder and fill your bags and go there and call the people: ‘Oh people, come here! I am selling medicine against fleas! I am bringing good medicine to take them away!’”

And the people came. And he sold the powder one box after another until it was finished. Then quickly he left the town and ran away, before the people could understand that it was a trick. And he ran. After a while he looked and saw that some people were running after him on horses and he tried to run more quickly. But they caught up to him: “Ya Hu – why you are escaping?”

“I am escaping, because I’ve got some work to do!”

“Yes, you can do it! But first we must understand how to use that medicine against the fleas!”

“Easy! You just catch the flea and open its mouth and ... so easy! Open its mouth and put the powder in, and then it’s dying!”

One of them who was a little bit more clever than the others said: “Oh my brother! If we could catch that flea we could kill it by squeezing it!”

He said: “Yes, that is also a way, but we are modern doctors now and we use this! Now animals have some rights. Perhaps you have not heard: You must not cause harm to animals, because they have rights! This squeezing makes too much trouble for them, therefore you must use the modern medical system according to animal rights! If you don’t, there is the court at La Hague, defending animal rights; one of the fleas may go there and complain, and then they will take you all to prison!”

“Yes, we accept ...”

Now I am saying to those people who do not say “Allah”, who don’t respect heavenly Orders: Allah Almighty will make them understand that atheism is a foolish idea. Atheists must know that there is a hea-

venly Curse on them. And He is not using the method He used in the time of Nimrod – now He is sending you the bird-flu virus. And here I am saying to those who do not accept that there is a Creator, who say that everything is material, and beyond material there is nothing, that they must catch that bird-flu virus, take poison against it, and put that in its mouth! Then it will be destroyed and you can save yourself from that virus, or it is going to eat all of you – living or even not living! The mosquitoes ate the flesh of Nimrod’s armies, and their bones remained, but these bird-flu viruses will also eat your bones! Beware of Shayṭān and keep yourself from heavenly Curses! You are such weak ones, don’t say that we have high technology. In an instant the Lord of Heaven, who created the Heavens and the earth and everything living, may send His Curses and destroy everything, leaving this world as a desert! Beware!

Yes, Shayṭān is sending some spies here: “What is that Sheikh saying?”

“Sheikh is saying that Allah could destroy your technology and your powers, all of them, and from 6 billion people He will take away 5 billion! He will send five away and there will remain only one – that is news from Holy Books – only one will remain from six, and five billion will be finished!

Therefore, oh people! If you are asking for a shelter – there is no shelter except in the Lord of Heavens. Run under that shelter! Don’t say: “We are powerful with our technology.” He may stop it! If curses come from

Heaven, everything that He granted man to use may be taken away. He granted man everything in order to be a good servant for their Creator. But they have used it in the wrong way. And heavenly Anger is preparing something ... As was prepared for the nation of Noah: at that time everything was destroyed by the flood and only 85 people remained on earth! All the rest were drowned! People are doing their worst now and Allah only wants His servants to do their best.

Abū Yazīd, Sulṭānu l-Awliyā', Abū Yazīd, said, when he had been asked: "What is Islam?" ...

– Shayṭān is making living people to run away from Islam, making it hated. If anybody from the non-Muslim world hears about Islam, they hate it. They hate it so much, they run away! So many people come to me; and they know that Tariqat makes them improve in their spirituality but they ask: "We are coming to you for our spirituality to be more powerful, but without Islam!"

I am replying: "It can't be! You are like a person who wants to reach the clouds or the atmosphere without using an aeroplane or without using a rocket – it is impossible! You can hate that rocket, but it is impossible for you to move from the earth to the atmosphere, to Heavens, without using it! You must use it!"

And they are running away ... now, Islam is a grant from Allah Almighty and He says: "Oh My servants, come to Me and use Islam!" –

Abū Yazīd, Sulṭānu l-Ārifīn, a famous Saint in the skies of Heaven, had been asked: "What is Islam?" And he said: "It is two matters. One is to give your high respect for your Lord's divine Service. You must first keep His heavenly Rights with full respect, and then the Lord of Heaven will dress you with honour and glory. This is one. And the second: Islam says: give your pity to every creature."

Therefore Islam never gives permission to a person to harm even one ant if it didn't give any harm to you. If that ant is not harming you, you can't kill it!

Now people are killing thousands of cows, millions of birds – why? For what? It is not permitted in the Holy Books: in the Old Testament, the New Testament and the Holy Qur'an! This has never been mentioned! Then Allah may leave them and send another virus on them! Not the bird-flu, but another kind of virus which will kill people in one day! All people!

May Allah forgive us! Oh people, say: *Astaghfirullāh, Astaghfirullāh, Astaghfirullāh!*

So the spies of Shayṭān know that Sheikh is intending to destroy the shayṭānic empire. Yes, that is my intention. May Allah give me a chance to destroy the empire of Shayṭān, Shayṭān's territory!

For the honour of the most honoured one in the Divine Presence Sayyidinā Muḥammad ﷺ, *Fāṭiḥah!* ♦
