

Therefore they are falling into such terrible trouble that they don't know how to get out of. Because they have fallen into such a deep well, they can't reach anything to help them get out, no. And they don't know what they are going to do.

I am a weak servant I may say, but I may give a real answer to them! And such things are real knowledge, heavenly knowledge, that no one can object to!

Oh people, you are coming to learn! Therefore, when you pass away and you have been buried in your grave, angels will come and ask you: "What did you learn?" That is the first question: "What have you learned?" "Man rabbuk? Who created you?" The first question is: "Who led you to the Lord of Creation? Who was that? What did you learn about what he has been granted?"

That is knowledge and it has been here for 15 centuries, don't say that it doesn't exist, or that it is unacceptable knowledge, no, you are wrong! Because, they have brought gold from the time of the Pharaohs, but they don't say: "This is old gold, we must throw it away!"

What the Prophets have brought are real pearls of knowledge, you must come and hear and listen and obey so that you can be a perfect one in the creation.

May Allah forgive us for the honour of the most honoured one Sayyidinā Muḥammad ﷺ, *Fātibah*. ◆

OUR HOMELAND IS HEAVENS

This lesson is about our relationship with spiritual powers. We are asking to reach our heavenly stations. Our souls came from the heavens and bodies from the earth. Everyone asks for his homeland. The Prophet says that to like your homeland is a part of faith. Our souls also like to be in their homeland, the heavens. Therefore, everyone likes to fly; our souls desire to be free from this dirty life. A man looking at the sky feels peace in his heart. He looks that all skies are for himself, no one else. Everyone may look and say: «Oh, this is for me.» But looking to earth and seeing so many people hearts contract. Doctors of old advised nervous people to look at the sky. Our souls are always looking and asking for their homelands, the heavens.

All Prophets and Saints come to teach people how to reach to heavens. Our Grandsheikh was one of them. Until we reach to heavens, we are in troubles, like a river running always, until it reaches to the sea, then river sleeps, no more running, tiring. Men also are always running, fighting, tiring, and never knowing for what they are fighting. Fighting is an attribute of man, when his inner life is contracted. When we have reached the sea, no one is giving trouble to others. The Prophet says that a believer is always so soft, so elegant, so merciful. Reaching their heavenly homeland, they are satisfied and feel absolute peace. Our egos and bad character make us to fight, and they are also the main reason keeping us on this earth. [...]

Allāb Allāb, Allāb Allāb, Allāb Allāb, Sulṭān Allāb!

Mā shā' Allāb! You must know that He is the Sultan!

Astaghfirullāb! Madad, yā sulṭānu l-awliyā', madad, yā rijālallāb!

The holy Prophet said: “*Ṭalabu l-‘ilmi fardun ‘alā kulli muslimin wa muslimah.*” To look for knowledge is obligatory for every muslim and muslimah.

The Seal of Prophets Sayyidinā Muḥammad ﷺ, *mu‘allimu n-nāsi l-khair*, was sent from Heaven to teach people what is necessary for them to learn and to know and to act. That is his real mission: to teach people. He came to teach people what is necessary for them to know and he said that a person must learn about his position and who created him and who created “*dunyā wa mā fīhā*”, the world and everything in it. You must learn! That is real knowledge. It is not real knowledge to learn about what is unnecessary or not obligatory.

Now people are trying very hard and they are making meaningless efforts. Yesterday I was looking at Shaitan’s box, the TV, and they were showing a program which had many scorpions. There was one person about the same age as Dr. Selim and he had many assistants and he was using a microscope and different instruments, catching the tail of the scorpion and taking its poison. He had maybe twenty scorpions in a box. And I am asking: For what is this? What are they learning? They are only looking at how that creature carries its poison and what is the power of that poison. And how was that person occupying himself with such a thing? And I am saying: “This person must lose his mind, because his effort is only directed at knowing about that poison in that creature, what its power is and what its effect is. It never occurs to that person to ask: ‘Who created that creature?’”

And that creature is on the same level as us on earth, but he never asks: “How did that creature get such a terrible poison?”

They eat something on earth and other kind of insects, spiders, also eating and other countless creatures in the same area are also eating, and for some people it is going to be poison and for other ones it will be medicine.

We have a saying that when the rain of April falls every creature wants to reach even one small drop from that April rain. “Why?”

I asked Grandsheikh and he said to me: “Because the rains that come in April take something from Paradise.” It is a secret happening, a secret event and you can’t think about it or you can’t learn about the secret of that rain. That rain is falling and some poisonous creatures – snakes, scorpions, spiders – are trying to reach some drops of that rain, and when it gets to their stomachs it is quickly changing into poison! In the mouth of a snake or dragon it is going to change into a terrible poison!

And also in the oceans. Every creature in the ocean is coming up to the surface of the ocean and they open their mouth to reach one drop of that holy rain coming from Heaven and they are changing into pearls!

That is a knowledge that is reaching mankind from Heaven through the Prophets, but now so many foolish scholars, as I said to you, are trying to catch the tail of a scorpion and take some drops of poison from its tail to examine it and see what it is. Why don’t you listen? This is not something that you have been ordered to learn, no! You must try to take your wisdom from the Holy Books which have been sent from heavenly sources. Holy books are full of wisdom, but their knowledge is like something that will be thrown into the dustbin. It is rubbish. Their knowledge is not real knowledge, it is a shaitanic way to occupy mankind to divert them from real reality and make them lose their minds, their capacities, their mentalities on something that is rubbish. Rubbish, because they are not saying:

“This is from the Creator.”

And all people are occupied now: “We are learning, our children have just finished O level, E level, T level, K level, X level ...” Then: “My son is going to university to be a doctor, to be PHD ...” What is a PHD!

We must try to learn about that knowledge which was sent to the Prophet from Heaven, not occupy yourself with what an ant is eating or how it carries its food. If an ant is carrying a wheat seed that is too big and heavier than its own being, how does it do it? How does it do it?

One person said: “I know anything, you can ask me about anything.”

One person said: “Oh my master, for so many years I have been thinking about something, it is very important to me.”

“What is that?”

“If you know everything I want to ask you about that.”

“Yes, you may ask.”

“Yes, people are wondering how an ant can carry such a heavy piece of wheat so easily. They may ask this. But I am asking you something that is much more important, a much more wonderful question. I would like to know the answer and no one has been able to give me one.”

“What is that?”

“You know that an ant has two parts, a headside and a backside. I was always looking and wondering about its intestines, if they were in its headside or its backside ...”

“I have never heard such a question or such an answer! You are making me change all my knowledge now! Oh person, where are you coming from?”

“I am from the Bedouin, I am always with ants, I am looking at this side and that side and the place where they join. How does it carry this and not leave that as a train may carry some wagons and the others ...”

This is so important for that idiot person! And that other idiot person wanted to know

how the power of a scorpion, if not killing a person, could at least make that person shout and cry for 24 hours from one sting. This is much more important than ants!

People are working on something that is “*mā lā ya‘nī*”, useless. The Prophet said ﷺ: “*Min ḥusni islāmi al-mar’ tarka mā lā ya‘nibi.*”*

Now all nations are doing research and they are spending billions of Dollars, wasting their energy, their time and their wealth on useless subjects ... What is that! If you don’t believe in that scorpion take one and put it in your hand and let it sting you – that is better. Why they are making so much research? That person also had a white beard which means he has no mind ...

You are coming to learn who created you. Where were you a hundred years ago? Was anyone here in existence? No. And after one hundred years where will you be? You are between two non-existent areas. This area is non-existent, and that one after it is also non-existent – how can you appear between two non-existent areas? Ask about this and learn about this and bow to Him, who has made it, who has created you in such a way! Use your minds in this way, because that is real knowledge that makes you reach the Creator of Heaven and Hell, the Creator of Heavens and Paradises, and universes and endless galaxies!

But people ... it is easy to take a scorpion ... But why are you wasting your time?

Ṭalabu l-‘ilmi fardun ‘alā kulli muslimin wa muslimah. I am sorry to say that now Muslim territories are following the same way wasting their time. They are running after and following no mind western people, leaving real sources of knowledge and wisdom that came from Heaven, and Allah Almighty said: “I am giving to you, oh my Ḥabīb, the Holy Qur’ān and wisdoms.”

* [From the good Islam of man leave what does not concern you.]
