The Soul Carries a Divine Stamp

MAULĀNĀ SHEIKH NĀZIM AL-ḤAQ QĀNĪ, Lefke, Cyprus,

Sohbet after *Jumu'a*, ~ 15th *Rabī'a ath-thānī* 1430, Friday, 10th of April 2009

As-salāmu 'alaikum, yā 'ibadallāh,
oh servants of the Lord of Heaven!
Madad, yā Rijālallāh.
Madad, yā Sayyidī, madad, ya Sayyidī!
We are saying:
Asbhadu an lā ilāba ill-Allāh
wa asbhadu ana Sayyidanā Muḥammadan
'abdubu wa ḥabībubu wa rasūlub ﷺ.

The most important factor in a person's life is *'ilm*, knowledge. Knowledge gives people honour and ignorance takes it away.

And now we are saying: *A'ūdhu bi-llābi mina sh-shayṭāni r-rajīm.* We are running away from Shaytan who is the most terrible and dangerous enemy of mankind. He was created before mankind and after him Allah Almighty created the first man and his wife.

He made this globe for them to live on it for a while, and then return to His Divine Presence.

And we are beginning to speak to people by saying His most honoured Name, His most glorified Name, because all Glory and Honour is for our Lord, our Creator.

Who created you, oh man?

Now we are saying: *A'ūdhu bi-llāhi mina sh-shayṭāni r-raġīm, bismillāhi r-raġmāni r-raġīm.* In the Name of the Lord of Heaven, Allah, who created everything and is arranging for all things to reach their destinations.

You can't find anything in creation that doesn't have a destination. Even an atom has a destination. It has a beginning and an end. And there is nothing that has been created without a wisdom. Everything! If one atom is absent, the balance of creation is going in the wrong way, because everything must be put in its own center. And everything has a purpose in creation.

This knowledge is like an ocean and you can't find an end or a bottom for such an ocean, it is impossible. And everything must have some reason or some wisdom for its existence. How many atoms do you have? The Creator knows and He is arranging everything according to His Divine will. If there was no Divine will nothing would exist. Everything goes according to His will, the Almighty, the Lord of Heaven. It is enough for Him to say to something "Be!" and it will come into existence. He is the Creator.

I am sorry to say that in the 21st century educated people, scientists, technologists, doctors, people with PhDs, academic people, learned people in general, are never interested to ask about and to know something about the secrets of this creation! And I notice that sometimes they are saying, "Oh, man is sending up some rockets to look and learn about the secrets of space." I don't think that a person can be more stu-

pid than those people! Where are you and where is space? Leave that and speak about things which are closer to you! You may look around yourself and say something. You may try to learn something about botany or the world of animals or you may look at yourself and say, "Who am I?" You will find the answer.

What can we say to those people who are so proud and they claim, "We have reached a high degree of knowledge now", and I am on the lowest level of knowledge. I may question those people, who are so proud to have a degree or to be doctors or professors or scientists. I may ask, "What about yourself? What do you know about yourself? Who are you?"

"I am Professor Mister Davis BOA ..."

"Is there such a degree?"

"No, it is only a PhD."

"Ya Hu, you have 29 letters, there must be 29 degrees!"

"Oh Sheikh, what are you saying? Until we get a PhD we will be old like you and you are saying that there are 29, or 30 letters?"

"Yes, if P has a meaning, H has a name, PhD has a meaning, what about other letters? What is their fault? Why don't you ask, 'Who are you, oh letter?' Everyone knows PhD, but the letters are beginning with A, B, C, D. Also there is WC ..."

"We never use WC."

"But that would give such an honour for some people, because in W two letters are becoming one. And C is much more important! 'C' means 'look'. Look and see where you are. Go to the WC and look what is there!"

People are so proud of being doctors.

"Who are you?"

"I am a servant."

"Hmmm. There is no value for you. Do you have a certificate?"

"No, but I can buy one if you like ..."

Because in our days there are so many imitation certificates. “But, oh Sheikh, we can’t put your photograph, because you are a 90 year old person! How can we put your name on that certificate and say that you are such a person?”

“Yes, I know, because I understand something about this life and you want someone who doesn’t know anything about this life. Therefore I am not running after your certificates or diplomas or other things.”

But if for example I am asking to be the chief advisor to the President of the US ... He may accept me, but he is saying, “Oh Sheikh, I also have Muslims in my family.”

“Yes, congratulations, you are not a Muslim? Do you think that there is anyone on this earth who is not a Muslim? Muslim means someone who has surrendered to their Lord, to the Creator. That is the meaning. So what do you mean when you say, ‘I also have Muslims in my tribe, in my family’? What about others? All of them must be Muslims!”

Muslim is an Arabic word that means ‘surrender’. Yes? Surrender. That means that all people who are alive have surrendered. If you deny this, then I can say: “If you don’t accept that you have surrendered to your Creator, when the Angel of Death comes to you to take your soul, you must say, ‘No, I am not giving you my soul.’ The Angel of Death comes and says: ‘Surrender to the holy Command of Heaven and give your soul to me!’ ‘But what about my physical being, oh Angel of Death, what about me?’ ‘You must go under the earth. I am taking your soul up. We are accepting your soul, we are not dealing with your dirt body!’ ‘Why dirty body?’ ‘Because you are going to the WC 40 times a day. How can you say that your body is not dirty? The production of our physical being is for the WC. How can you say that, ‘I am clean’? No, we are leaving your dirty body on earth and we are

taking your soul up. We are dealing with your soul.”

“How do you know this?”

“I know from my understanding and also from Holy Books.”

“Are there any Holy Books?”

“Do you know that there are no Holy Books?”

“I have never heard about Holy Books.”

“You are only amongst the dirtiness of your physical being and your soul is shouting to you, ‘Shut up, shut up! I am here pure, but you are dirty and now the Angel of Death is coming to take me up, leaving dirty you on earth!’”

Why are they not doing research on that subject?

“Now we are going to investigate the secrets of space.”

“You haven’t finished with the world that is nearest to you and you are running to know about something that is so far away that the distances can’t be measured! You say that they are so far away that the speed of light would take billions of years to reach them. And still you are insisting to say, ‘We want to know some secrets.’” What is that foolishness? You are trying to cheat people and you are trying to occupy people so that they don’t ask who created this space! What was before this space, what will be after? From where are they coming? Why are you not asking these questions?

They are not asking, because it is difficult, very difficult. But the day is coming when your soul will be taken from your body and with the speed of your soul you can reach to the end of that space. Now your physical body can’t reach there. The physical body is tiring, but the soul never gets tired, never! This is because the physical being belongs to earth and the soul belongs to the Divine Presence. They have a Divine stamp on them. Therefore when you use the speed of your soul you may travel through this space.

And do you think that there is only one space? You are so wrong, because the Lord of Heaven is continuously creating. He only has to say “Be!” and a space a billion times bigger will come into existence! He is the Creator and He may create anything. If He wants to create a new space which is bigger than this space by billions or trillions or quadrillion of times – instantly it will be in existence!

You must teach this, oh people, about the Lord of Creation. You must ask about your Creator, the Lord of Heaven. You must try to learn about your Creator and you must be respectful towards your Creator. If you don’t ask only cursed rain should fall on mankind.

And now this is happening. The population which is living on earth, is never asking about their Creator. They never ask “Who am I?” Therefore curses are coming from Heaven and people are worse enemies to each other than beasts. And it is impossible for the UN, US, UH, UG, UI assemblies to have any value. These assemblies never give anything and people will continue – because they are ignorant – to kill each other and there will be no peace on earth, till they say, “Oh my Lord, we are Your servants and You are our Lord and we want to follow Your Divine way. Forgive us and bless Your weak servants!”

When they say this, then Divine help or Divine intervention will reach earth and in 24 hours or less, even in a second it is possible, that the Lord of Heaven can change the lives of people. They must turn their hearts to their Lord. He may instantly change the hearts of people and Allah Almighty’s Blessings will reach them. Or else they should be cursed. And now you can’t find any people in the East or the West who are not quarrelling, who are not fighting, who are not killing, who are not giving trouble to other people, to each other. And the reason for this is

as we are saying. If anyone accepts this they should be happy. If they don’t accept this heavenly justice will punish them.

I have never heard this on TV. So many people are speaking, but I have never heard anyone from top level people to present the Holy Books and say, “Oh people, He created you to be friends to each other and to help each other and to be His servants.”

I have never heard this. They are always saying something tasteless. This is a warning from a weak servant of the Lord of the Heavens. Anyone who can understand the meaning and take a lesson, should be happy. If not, heavenly justice will punish them.

May Allah forgive us. *As-salāmu ‘alaikum.*

This is not something that I have prepared a week ago, or a month ago, no. This is what is coming to my soul from Heaven, through our Grandsheikhs, through our holy people. They are making me speak here. May Allah forgive me and everything. Fātiḥah ...

Allabumma ṣalli wa sallim ‘alā Nabīyyinā Muḥammad ‘alayhi salām, ṣalātan tadūmu wa tubdā ilayh, ma‘ marri layālī wa ṭūli dawām...
