

Durood Qur'ānī

From: *A Book Of Salawat*, comp. by A. K. Patoli, Sri Lanka 1991, p. 17.

Meaning: Oh Allāb, send your blessings and peace on Muḥammad our Master and on his progeny and his companions according to the number of every letter in Qur'ān and let each letter carry thousands of blessings and Salutations in it.

This Durood Sharīf is very sacred one. If it is recited after every prayer it is assumed that the Holy Qur'ān has been recited in full.

After reading verses of Holy Qur'ān this Durood should be recited, three times.

Oh people, may Allāh forgive us. We are such bad servants. We are not good servants. If we were good servants Shaytan and his followers would run away from us, because Allāh Almighty dresses *mu'mins*, the followers of the Seal of Prophets in greatness, *beybet*. But we don't know our responsibilities which the Lord of Heavens has asked us to fulfill and we don't know how to follow Heavenly Orders. If we really followed the holy Orders of Heaven there would not be one Shaytan. Even if there was a world full of Shaytans, they would run away from you. One Mu'min, one follower of the holy orders of heaven, is dressed in such a greatness, such a mightiness that no one is able to look at him and no one is able to trap him or to trick him. No, Shaytans must run away. If there were millions of Shaytans on earth, or even billions of Shaytans, Allāh Almighty is dressing His servant with such greatness and glory that all of them would be trembling in front of him. Now there are billions of mu'mins, but I am sorry to say, that they are only Muslims by name. Islam is never reaching their heads or entering their hearts. If Islam reached the heart of one Muslim billions of Shaytans would run away from him.

But as the Prophet, peace be upon him, was saying, we are in the time: *Zayati z-zamān* "lam yabqā min al-Islāmi illā ismibi."

The Seal of Prophets was telling us about coming events. "When the Last Day approaches only the name of Islam will remain, no more." If Islam was in our hearts, in our bodies, then Shaytan, even if they were billions of Shaytans, would run away from the greatness of that believer. They would run away from a Muslim. But we are now living in that time as the Prophet informed us when only the name of Islam is left and real Islam can't be found. And Muslims are to blame. The Muslim World is afraid of non-Muslims, we are afraid of Western coun-

tries and afraid of their weapons. We are not afraid of Allah, but we are afraid of nuclear bombs. How foolish we are!

You must believe that if Allah Almighty doesn't give a mosquito permission, it can't move its wings. But He gives. Allah Almighty, the creator of the mosquito, gives permission or authority for it to fly with its wings. If He did not give it, that mosquito could not move its wings.

That is our belief and our beliefs must be in such a way. If a mosquito couldn't move its wings what about mankind who don't believe in heavenly messages. How can they do something by themselves! They can't. If Allāh Almighty lets them move, they may do something. If not, whole armies of non-Muslims of other nations can't do anything. It is enough for the Lord of Heaven to say to technology or to nuclear bombs 'stop' and they wouldn't be able to do anything, finish. But you are not trying to understand. At least we must know, we must believe that the Creator of everything when He wants something to be only has to say 'Be', and it will come into existence, and if He says 'don't be', it will disappear.

This is correct, oh Muslim Community, nation of Sayyidinā Muḥammad ﷺ. If Allāh Almighty orders something to be or not to be that's what will happen! But the belief of Muslims' nowadays is on the lowest level. The absolute lowest level. A Muslim must believe that everything happens by holy Order, by the holy Command of Heaven. That is the reason that the Prophet, peace be upon him, said:

"The day will come when only the name of Islam will remain and nothing else."

We must believe that the real command for everything comes from Heaven. And Allāh Almighty is not – we may say – empty, so that He should look after your weapons, or look after your armies. No, He is not looking, He may order one creature to make

those proud nations living in the 21st century tremble. Now everyone everywhere has heard about pig-flu. What is that pig-flu? And you have such huge weapons, oh 21st century people, you have such huge armies that may break this world into pieces. So you think. But Allāh Almighty has put in front of you pig-flu. And they say that flu is coming from a virus – wireless? –, a 'wireless' also.

You need such things. But they don't need to use such instruments, that virus is connected directly to its creator, and it knows why it is in existence. If you ask the virus: "Why has your Creator created you, oh virus? Tell me, I can't see you, I can't touch you, I can't hear you. But tell me, what is the secret power or the secret of secrets in you that makes mankind who are so powerful to be afraid of you? What is the reason?" It knows the answers to these questions.

... Oh, I am asking Baba Tahsin. I am asking him if that virus has eyes to see. He says, I am not a virus to know. But Baba Tahsin is trembling if that virus comes. I am saying, don't be afraid, if it is walking to you, it may bite you and you may fall down and you will be sick. But if the virus comes riding on a horse or a donkey or coming on a camel don't be afraid. You understand? – Never understanding.

Why are you afraid of a virus? Fear that one who created it and sent it to proud mankind. And they are running away from it, but they can't see it. Our scientists, our doctors say that it is very dangerous and although we can't find them we must run away. But when we run away, they say it is running before us to that place where we are escaping. Do you understand? Never understanding. 'Abdu r-Ra'ūf, do you understand? He showed me a whale, a huge whale; ask it from where that virus comes. It may know, but you can't know. Oh people, fear your Creator and try to give high respect and glory and majesty to your Lord

Allāh Almighty because He is the only one who can protect you from that virus. Yes, we are saying this, because mankind claims, "We are mighty ones." "Why are you claiming that you have mighty powers?"

"Because we have such and such instruments and we are so proud of such powerful weapons." –

I am saying: "If you have such powerful weapons why don't you send jet planes after that virus? Try it!" 'Abdu l-Ḥaqq, 'Abdu r-Ra'ūf, try it, run after them with a jet plane. If you are claiming to have such mighty and miraculous powers, try to take that virus away.

Religion is for training people, to give them politeness and to give them good manners, to grant them every good characteristic. That is the purpose of religion. Try to be a good servant to your Lord Almighty Allāh for the sake of the most respected Prophet Sayyidinā Muḥammad ﷺ. And try to keep their ways because the day is coming when you should be taken away from this life to another life. Try to use your mind and your knowledge to understand why you are in existence, and why you are on this planet and who it is who brought you from nothing to be something. Oh people, oh people, keep the most high respect to your Lord, that He Almighty may protect you and shelter you here and hereafter.

We are weak people, and we are meeting once a week on the day of Jumu'a, the holiest day of all nations, the Day of Pleasure, the Day of Honour, the Day of Majesty, the Day of Glory. May Allāh forgive us and give us a good understanding to be His weak servants. May Allāh forgive us and grant you from His Endless Mercy Oceans, for the honour of the most honoured one Sayyidinā Muḥammad ﷺ. *As-salāmu 'alaikum!*
