Run to Allāh!

SULTĀN AL-AWLIYĀ' MAULĀNĀ SHEIKH NĀZIM AL-ḤAQQĀNĪ,
Sohbet Lefke, Cyprus, 6th *Jumādā al-ākbar*, 20 May 2010

Dastūr yā Sayyidī, madad.

*Lā ilāha illā llāh. Lā ilāha illā llāh. Lā il-
āba illā llāh Muḥammadun Rasūlullāh 'alayhi
ṣalātullāh. Thumma as-salāmu 'alayka Sayyidi
'l-Awwalīn wa'l-Akbarīn.*

Madad yā Rijāl Allāh.

*As-salāmu 'alaykum, O Mankind through-
out the east and west, from north to south,*

everyone on this planet. Welcome to you!
[Mawlana Shaykh laughs.] Be happy that
we are in existence. Even if we were only
one atom, it would still be an endless hon-
our for us to have been created. If we had
not been created there would be no honour,
nothing for us. *Al-ḥamdu lillāh* that we are in
existence and the Lord of the Heavens has

granted us such honour that no other creature has been granted. There is no doubt that everything receives a grant from their Creator, but Mankind has been granted the highest honour.

We are asking for your full attention, and we are looking towards the one who is responsible for Mankind on Earth. There is someone who is responsible for all humanity. He is responsible. As-salāmu ‘alaykum, O holy one. You have been dressed in holiness by the Lord of the Heavens. Your holiness has not been given to you by Mankind. Whoever is given the title “Holiness” by Mankind, has something which has no value. Holiness is a heavenly grant. If He dresses a person, then that person is really holy, unlike our imitated titles, which give a person this and that.

And we are saying, *a‘ūdhu billābi mina sh-shayṭāni ‘r-rajīm*. Every badness, every trouble, every misery, and every suffering is on behalf of Shaytan and its generations. Does he have generations?

O Salafi ‘ulamā’, marhaban! What do you think? Does Shaytan have generations or not? Yes, he has! Daily, as often as a newborn baby is arriving, Shaytan is bringing forth its offspring. If there are five billion people now, there must be five billion shaytans or more! He is calling people towards fire because Shaytan is created from fire and wants Mankind to come with him into the fire. He wants to make Mankind also into a creation of fire. And people are running after Shaytan and taking from Shaytan’s generations, thinking that Shaytan is granting them such a valuable thing. All technology is based on one spot of fire which Shaytan has opened to Mankind. Every kind of technology is dependent on that one spot of fire. One spark is enough; that spark could burn everything on Earth! But that spark is under control, or Shaytan would burn everyone in its fire.

Ajā’ib, that is a very surprising thing, amazing. Shaytan could burn everything, but it is given only one spark. Two sparks would burn everything for Mankind, but Shaytan is under control and Man is under heavenly protection. Some of them are asking to run away from that protection, and fire is surrounding them. So, now, people are running to that shaytanik spark to take more power from it, but it has reached the last limit given to those heedless people, and no more is going to be given. One spark can burn everything! There is *itfa’iyāt*, “fire extinguisher,” fire department control, but that is nothing. There are responsible saints under the command of the main holy person on this Earth. They can’t do more than this or everything is going to be burned and destroyed. Everything you can touch is burning. *Subḥān Allāh!*

O People! *As-salāmu ‘alaykum*. Welcome to you, our attenders! I am the weakest person for protecting people, yes. So many are after that holy person’s order, looking, looking, and also shooting arrows at them, arrows created from fire. Angels are sending on them from material arrows, touching them and rendering them useless. But Shaytan is quickly bringing others to destroy Mankind. First, it is asking to destroy them physically, and secondly, Shaytan is asking to destroy their honour. Are you saying such things to your people, Azhari ‘ulamā’, to warn them, or not? I never hear you. You must make apparent some things which will protect Muslims, and others also. Yes, Shaytan is always running after men to destroy them with its fires. Yet there are some protectors under the command of that authorized saint on Earth: wherever that fire appears, they run to it.

wa makarū wa makarallāhu wa llāhu khayru ‘l-mākirīna,

[They (unbelievers) planned evil and Allah also planned, and He is the best of planners. 3:54]

Shaytan and its generations are always trying to trap people, and countless tricks are sent to Mankind. You would not use nuclear bombs or weapons, no, but they are sending such things on Man to destroy their real beings and real honour. Shaytan's goal is to take away Mankind's honour. But Allah *subhānahu wa ta'ālā* says, *wa makarū wa makarallābu!*

They never rest in their efforts to do something against Mankind, particularly against their humanity, as it is that which gives Mankind honour. Shaytans are taking aim at Mankind, physically and spiritually, using so many tricks, so that if you save yourself from one, you will be caught by another ! But He Who created Mankind and honours them, He Who makes deputies and cares for His most honored creatures, Mankind, *Allābu khayru 'l-mākirīna*. Shaytan is doing his best to destroy Mankind. Shaytan's tricks are never-ending, beginning with Adam and Eve in Paradise, using tricks to get them thrown out. And they were followed when they landed on Earth. Shaytan threw itself on Earth after them!

When Allah Almighty created Adam ﷺ, he was lying down as Allah Almighty's *rūh*, the secret power and secret honour, had not yet been given to Adam. He was like a statue. Shaytan looked at that newly created form and knocked on it like this [Mawlana knocks on shelf]. He said, "It is not solid, it's empty!" Then he entered through the mouth of Adam ﷺ looking around and turning everywhere and then coming out. He said, "It is a new Creation, but it is empty, empty! It doesn't matter. If it is not solid, it is easier for me to take control of that new Creation." So, Shaytan first said, "This is empty. I can control that new Creation."

Everyone, from their chest down is vulnerable. That means Shaytan has been given an authority to go around our bodies, running everywhere. And he said, "It

doesn't matter, I can control it because it is empty." Therefore, *wa makarū*, "They plan deceit." Shaytan and its generations are always working against Man, from top to bottom. They are taking control of a new generation of Mankind from the inside out. Shaytan is preparing endless tricks and traps to catch Mankind on his hook and carry them away. But the Lord of the Heavens says, "*Wa makarū!*"

They are using endless hooks to take Mankind with them. This human form is created from four elements, but they are created from fire so they are always trying to carry mankind to the fire. But the Lord of Heaven says, *wa makarū wa makarallābu*, "They cheated and Allah *subhānahu wa ta'ālā* deceived them." They may try to cheat, but Allah Almighty never leaves Mankind in their hands, no! For every trick Shaytan uses, there is heavenly protection stopping it. They are asking to trip you up, but heavenly protection intervenes in their traps, and a heavenly defense closes them.

Man is now bombarded by shaytanic traps. Shaytan is roaming free from east to west, from north to south and he is so happy and proud that, "I am on top of Mankind, they are under my control." Against Mankind it may use so many of its followers and soldiers, Shaytan's soldiers. And amongst men, who are more powerful, there are followers of Shaytan. They have been sent against Mankind from Mankind. They are using countless followers to put Mankind under their control. But the Lord of the Heavens says, "I am stopping every one of Shaytan's traps. I am putting a barrier in front of them and stopping them." He says, *Allābu khayrun ḥāfiẓun*, "Allah is the Best Protector." He protects Mankind as He likes. Therefore, Shaytan is very careful. His hope is, "I aim to put one hundred percent of Mankind under my flag and take them to the fire. I am made of fire, and it

doesn't affect me, but when they come with me, I throw them into hell and into suffering.”

One philosopher was making an argument saying that, “Fire gives no harm to fire.” And a second one said, “Look, Man has been created from Earth, but Earth gives them trouble, and suffering.” Shaytan says, “We are from fire, therefore we do not worry about fire, it can't cause us any suffering.” The first philosopher said, “Therefore, we too will never be punished by the Earth.” The second one took a stone and hit himself on the head, and said, “O my head! If my head suffers, Shaytan will also get the worst punishment, suffering from fire.”

What we say now is to make our ‘ulamā’ declare, “People! O people, beware of Shaytan! Shaytan is running after you, take care!” People may ask, “To where can we escape from Shaytan’s tricks and traps?” Allah Almighty says, *fa-firru ilā llāh*, “Run to Allah!” [51:50] O people, run to Allah! You will be saved here and Hereafter!

Why are not you saying such things? Holy people from the Jews, holy people from the Christians, why are you not saying that they should run to Allah? But I am sorry to say even Muslims are running after western people, hoping to be saved by western people. They are hoping to be saved by western ways, by running to western countries. They are wrong! Every one of the Muslim territories is trying to be a western state. This is one hundred per cent wrong. O ‘ulamā’, why are you not saying this? You must warn people. Why are you running to western countries hoping to find a restful, happy life, a “high life?” Don’t run to them.

Allah says, “O creatures, run to Me!” The Prophet says, “Run to Allah!” Where will we find Allah? Run to His Holy Book, Qur’an aẓīm ash-shā’an, the Holy Sacred Qur’an. There you are going to find the ways to

run to Allah. If you are not doing this, you will never be saved here and Hereafter. Because Shaytan’s hegemony covers you and you will not be taken to your Lord’s Divine Presence. May Allah forgive us.

Fāṭihah.

[Mawlana Shaykh sings:]

Dome dome, dome dome
Dome dome, dome dome
Dome dome, dome dome
Dome dome, dome dome

Dome dome, dome dome
Dome dome, dome dome
Dome dome, dome dome
Dome dome, dome dome

Come to Allah! O people, where can you find Allah? Through His deputy, Sayyidinā Muḥammad ﷺ!

Where you find His deputy, you find Allah.

[43 minutes.] Okay.

We are happy with you, our attenders, and we will break down shaytanic chains and make Shaytan and its workers to run away and never come back. We are bombarding them!

Shaykh Hisham Effendi is in Indonesia? [He is giving salāms.] Send my salaams.

[Mawlana Shaykh prays two raka‘āt shukr.] ♦
